Preface

The Mid-Atlantic Center for Community Education's library houses a professional reference collection of specialized publications, studies, reports, audio-visual materials and information on local, state, regional, and national organizations and agencies with concerns related to the philosophy of Community Education and the Community School concept. This index was compiled to catalog materials and to serve as a reference guide.

The library is an on-site professional and graduate reference center. Many visitors to the Center have remarked that is is possibly the largest and most comprehensive single Community Education-related reference collection housed in one location. Materials listed in the index have been obtained over a seven year period by staff members and students associated with the University of Virginia, Mid-Atlantic Center for Community Education and are not for circulation. Individuals who desire to use these materials are welcomed to visit the Center.
